

The time to start saving is NOW!

The small investment you make in ePaint insulating paint products will be returned to you within a few short months from the savings on your energy costs. From that point on, the savings are in your pocket!

4 Step Process:

- 1st Coat is a 100% Acrylic Universal Primer
- 2nd Coat is Barrier Coat #85
- 3rd Coat is Ceramic Paint
- 4th Coat is a 2nd coat of Ceramic Paint
